

One Challenge's Global Ministry

One Challenge is an international mission sending agency empowering local church ministry in more than 100 countries around the world. The following are the primary expressions of One Challenge's Global Ministry.

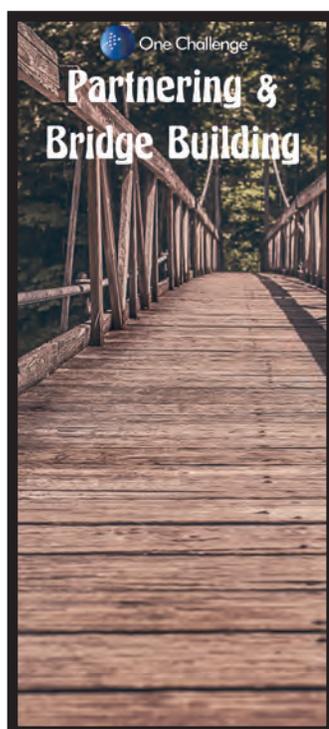

Church Planting & Growth:

We invest in people and opportunities that enable churches to be planted, thrive, grow, and multiply. When invited by local leaders, OC conducts training for church planters and those interested in learning about disciple making movements.

Leadership Development:

We are committed to the equipping of leaders, inside and outside the church, with kingdom principles allowing them to move entire people groups toward transformation, hope and justice. Those leaders in turn can mentor others, and together we all bring God's transformation to lives, communities, and nations.

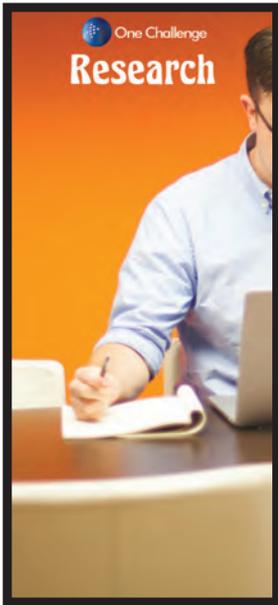

Partnering & Bridge Building:

We serve, equip, and connect the body of Christ to advance God's kingdom among all people. We engage in strategic partnerships out of a conviction that the whole is greater than the sum of its parts.

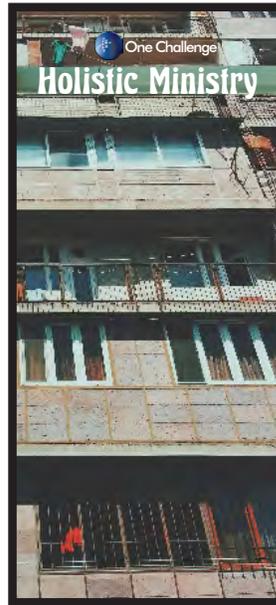

Missions Mobilization:

We seek to empower the whole body of Christ to bring a transforming love and hope to all people. When invited by local leaders, OC facilitates local bodies of believers to identify, train, and send global workers toward realizing a "from everywhere to everywhere" vision.

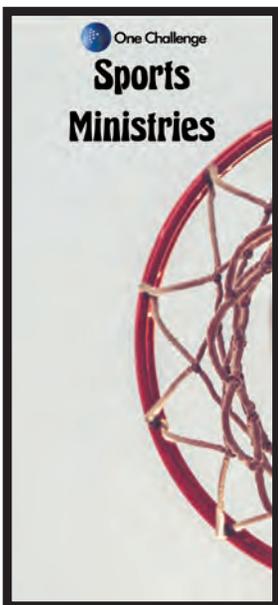

Research:

We assist field workers, churches and ministry partners to gather and analyze information to aid in the mobilization of the body of Christ and in strategic planning in order to faithfully carry out the Great Commission of Jesus to make disciples of all nations. The purpose of field research is to perceive what the Holy Spirit is doing and where he wants to lead the body of Christ, so we can cooperate with Him and be used by God in his harvest.

Holistic Ministry:

To bring God's love and hope to all people, we identify and work to meet the physical, emotional, and social needs of individuals and communities, providing opportunities for deeper level relationships and deeper levels of change. This includes education, medical services, agricultural development, community development, and small business mentoring ... helping local people to build a healthy community.

Sports Ministries:

One Challenge uses sports as a vehicle to create opportunities for sharing the gospel, planting churches, helping churches engage their communities, and developing disciple-making networks.

Education:

One Challenge seeks to educate on all levels in order to equip the next generation of leaders ... English as a second language, global workers' children in international schools, university and seminary students.

Member Care:

One Challenge wants to encourage a high level of care for global workers, providing the opportunity for them to thrive in their countries of service, bringing the best of who they are to the kingdom growth effort. We pursue genuine relationships and accountability in family, friendship, team, ministry, and local communities of faith.

Short-Term:

We serve, equip, and connect the body of Christ to share the Good News with all people. Short-term opportunities last between one month and one year with the purpose to provide opportunities for intensive, proactive and cross-cultural experiences.
