GOD AT WORK THROUGH ONE CHALLENGE

YOUTH LEADERS:

Tim and Annette are global nomads who train thousands of youth leaders in events around the world and through **internet resources**.

TRAINING & CARE:

The One Challenge team in southern Spain provides training and care for mission workers from Central and South America, helping them to **survive and thrive** in very difficult contexts.

RELIEF EFFORTS:

Gill is invested in Nepal and after the 2015 **earthquakes** he helped facilitate the provision of food, supplies and temporary buildings there.

INTERNATIONAL SCHOOLS:

Eric and Kara, working at Black Forest Academy in Germany investing in **future leaders** through classroom teaching and care, are examples of ministry through education around the world.

REFUGEES:

Alexandria works with Muslim refugees in the United States, helping them become **active members of their new communities**. These deep relationships open doors for kingdom growth as well.

CHURCH MULTIPLICATION:

Churches in Asia are multiplying beyond measure among **least reached people** groups. A strategy based on training trainers who then train others makes this kind of growth possible.

BUSINESS:

Jon runs a security business in a least reached country. Growing relationships and enduring setbacks have led to **kingdom questions** from employees who even bring friends to find out more about the faith.

DISCIPLE-MAKING MOVEMENTS (DMM):

Karl, and his Africa Area Team, used DMM strategies in Madagascar to train 45 leaders in 2010 and more than **2,200 churches** have been planted as a result.

SPORTS:

Basketball is big in the Philippines. Rich used this passion in helping create a church **basketball league** on one of the southern islands training coaches and pastors in evangelism and discipleship.

RESEARCH:

Reports from the One Challenge Global Research team have helped Dave to facilitate SE Asia church planting and growth. Research plays a critical role in the **use of resources** in ministry worldwide.
