

OC GLOBAL ALLIANCE IMPACT

Momentum Matters – OC Annual Report

God is on the move and invites us to join in what he’s doing. He’s moving in more creative ways, sharing his love in more languages, and displaying his majesty in more cultures than ever before.

Momentum is building. We’re seeing collaboration unleash new ministry initiatives and accelerate progress across the global body of Christ. Mission is surging from Asia, Africa, and Latin America and is reflected in the impact of the OC Global Alliance (OCGA). It’s gaining force with the massive flow of migrants who now live in close contact with Christ-followers.

Movements are multiplying. Disciple-making movements are flowing across barriers from one unreached group to another. As movements reproduce movements, Jesus is being made known in places long hidden from the gospel.

Lives are changing. The numbers reflected in this report are not mere statistics. They each represent a life – a person changed, assisted, or mentored. The OCGA is privileged to be a part of God’s plan in these lives. Their

individual stories are not reflected in the report, but Jesus knows each name.

Discover how God is moving. We can’t share every story here, but we’d love for you to explore OneChallenge.org and read the ways God’s momentum is moving through One Challenge and the OC Global Alliance. Your partnership makes these stories possible.

Momentum matters! Missions is about seeing God at work and moving with him. It’s being drawn into the forward motion of his love toward lost individuals and broken communities.

Let’s keep moving together!
